EDUCATION

New York University , NYC, USA	Sep 2026 - May 2028
M.S - Management of Technology (Merit Scholarship Recipient)	
JSS Science and Technology University , Mysore, India	2019 - 2023
B.E. – Information Science and Engineering	GPA:3.4/4

EXPERIENCE

The Heineken Company(United breweries), Bangalore	Aug 2023 – July 2026
Data Analyst	

- Redesigned the \$1.2M sales incentive program for 1,000+ field executives across 26 regions; improved execution (Cooler Share 80%→94%, Perfect Store 11%→24%) and supported 22% premium portfolio growth.
 - Owned the incentive management platform; automated target allocation and score-based payout calculations via governed Python/SQL pipelines (3 refreshes/day) with validation and audit trails, moving payouts from a two-month lag to the same month.
 - Built a Brand P&L dashboard to track sales/marketing spend and surface cost drivers earlier, improving commercial visibility into profitability and reducing recurring manual reporting.
 - Built a Heineken 0.0 PO-to-fulfillment dashboard (inventory + expiries), replacing manual multi-source reporting and saving ~40+ hours/week through automated refreshes.
 - Built a new product launch performance dashboard by defining success metrics and tracking early in-market signals; enabled Marketing to quantify impact for executive updates and refine campaign strategy and spend.
 - Built an executive operations dashboard integrating production, dispatch, sales, and SKU-level demand plans across breweries/states to surface bottlenecks and drive faster corrective actions.
-

TECHNICAL SKILLS:

- **Programming & Data Analysis:** SQL, Python, Excel
 - **Visualization & BI Tools:** Power BI, Tableau,looker
 - **Cloud & Big Data Tool:** Azure, Databricks
 - **Project Tools & Soft Skills:** Jira, Agile/Scrum, Stakeholder Management
-

ADDITIONAL:

- **Mentor, Data Analytics Team:** Mentored interns on Power BI and data storytelling.
- **Workshop Lead, Excel Fundamentals:** Led cross-functional Excel fundamentals training.
